Jeffrey,

Just spoke to Eric,.

The Pronto he is holding up in his photo is the real deal,. It's off serial 5015 / G550 in his hanger,.

If the remote doesn't work, I should be able to send it to Rockwell Collins for programming to our Serial number., Eric no longer needs this remote since He is installing the Rockwell Collins venue system in 5015, (Venue is \$600k hat included monitors etc).

Eric is charging it now and will let me try it in our cabin, I will send Chip to Islip tomorrow to pick up the remote, I plan to return Friday night or whenever you need me back in New York

Should I return to NY Friday night? For a departure Saturday morn?

Thx

Larry
