Subject: Re: MBR housekeeper steps revisited

Date: Mon, 03 Apr 2017 16:40:13 +0000

narrow and planted at landing wide at steps ok, just water runoff should be considered

Jeffrey,

We looked at the housekeeping steps for ways to hide the path, and have the following suggestions.

Coral stone pavers removed so the landing area by your MBR door is only gravel as previous, placing potted palm to mask the stair from your view

I did a quick photoshop sketch showing:

A narrower step by moving the outer step wall closer to MBR wall, creating 2 feet wide steps

A smaller landing area, increasing the gravel area, thus making steps less visible.

The final view with a generic palm inserted. (Not the final pot, nor palm, just for effect)

Would this be acceptable or is it still too visible?

Thank you

John
