after 1 if that works. 1 keep in mind, first you send me drawings with crazy elevations. .  
bathroomos with no toilet. . no access. roads. . lsj with the roofs reversed. no wind protection.  
cabanas that look nothing like the image board.s. . months of plans that show no reflection of our  
discussions. . bike access. small window facing a hill.?

I returned late last night from your last plans that reflect a rendering that has no relation to reality.  
sizes. layouts etc.

Ramon I like you. I had great hopes. I am very very disappointed. that being said, I have reviewed all your submissions to date. roofs with no gutters , in a hurricane enviornment. . no consieration of as builds heights in courtard, . PLease look at chateau L'horizon. it would be a different idea one grand house on gsj, , I suggest you try to copy this building on gsj, . I can see that the island style of the soori , is not going to be produced by your office. I sent karyna to bali to see for herself. . and compared with the production so far, and though i even suggested you hire the architect from that project. so far as i have said , I have absolutilye nothing that reflects our understanding. why dont you try to copy a large house on great st james. and i will need to hire someone else to do lsj. thoughts.?
