Sorry about that

Danny worked on it for over 3 hours blowing out lines at both ends, moved drains from Pans

Said he did what he could, the thermostat in movie room was cooling at 5pm having gone down 4 degrees

Thought this was good sign, clearly this issue is not going to be solved via Danny

Reefco on GSJ tomorrow for the ice maker issue, suggest we bring them over to LSJ, although given they have reviewed the issue twice!!

Joe (possible new engineer) will be on site on Sunday, perhaps this might be something we can get him to review, if nothing else a new pair of eyes

None of this helping with the issues we have right now

Sorry unable to be of more help

Regards

Karen
