Have reached out to EB no response

RO - as mentioned Service on Membranes next week to relieve the high pressure issues on the Pump and calibration pre and post treatment I will be on site for this  
Install HP Pump anticipate mid April  
Water Softener - as in the past you should not require this, now that there is Calcium Carbonate on site the water quality will improve  
Tech will be on site next week, will review entire system and forward our findings to you

Switch Service had a 10 week lead time from signing of contract, approval was finally given Feb 1  
RO HP Pump replacement 8 to 10 lead time, renegotiated 4-6 weeks, with a savings of 20K plus and a better pump  
Service is planned for next week.

The main reason you have crappy water is Smiley ran out of Calcium Carbonate, Did he ever come up to you and say "Sir I need Calcium Carbonate, I have asked Danny and Anna to order and nothings happened"  
I assume not.

Regarding the Metal Sheds

Received Drawings from John Woods Jan 7th  
Forwarded Drawings to Buck Steel for Bid Jan 17th  
Revised bids from Buck Steel Received Feb 1  
Forward to EB for Bid Feb 1, last communication Feb 16 they advising bids would be received Feb 23, nothing as of date.  
Forwarded to Drawings for Metal Sheds & Huts to Agencios Construction Feb 6th

If you wish I can forward all E Mails relating to these topics.  
I have forwarded proposals from Buck Steel and Agencios to RK for his review

Sorry

I worked extremely hard on all of these items. Especially RO and Switch Gear

Noting Switch Gear issue started in 2013 and RO in 2015

I addressed these issues Nov 2016 after finding out that basically nothing was working, no PMA being completed and everyone was blaming someone else for the issues or ignoring it totally rather than trying to resolve them

I'm looking for long term resolve and relationships so this does not happen to you again

Working extremely hard to save you expenses that companies were trying to charge you. Doing all of this with very little support and working remotely to resolve these issues

[REDACTED] will be forwarding the Project Report noting all of this history, so you may review
