Thank you, Dan!

Very much enjoyed your celebratory concert! Now I know the instrument that is front and center in Within You, Without You on Sgt Pepper's...I've been wondering since 1967!

Have made a significant dent in my book proposal thanks to a grant to The Institute for Music & Brain Science. Thank you again for agreeing to join Bob Freeman, Nick Zervas, and Tom Sturges on the Executive Board.

Are you available for breakfast or lunch or pre-dinner cocktail on Saturday? Or lunch Friday? Would love to touch base about the next step in the effort to establish the nation's number one Music/Brain/Medicine Institute at UCLA with the help of developmental officers - now potentially from the three school I hold appointments in. We never did get a chance to lunch with Dean Sork. I will Cc Vivek, who has been a continuing inspiration and guide in the effort and has encouraged me to Think Big. The field has grown and there is a lot of talent we could bring in before MY retirement! lol

Cheers,
Mark

Hi Mark,

The faculty voted overwhelmingly to support your appointment in our department with a split appointment in the NSIDP. You'll need to work out the details with Stephanie.

Congrats, and welcome.

Barney

Hi Stephanie & Barney -

Checking in -

I'm on campus from about 4P this afternoon to Saturday afternoon if you might need me for anything.

Best,

Mark
