remove the iphone chargers at the seats. new arm rest covers.full with holes for seat adjustments. velcro stick ups on switch covers. all latches adjusted and tightened. another under seat pouch for seconde captain chair. ? drain in lav still not good . shakes and handle . . sink cover needs different method of removal (thumb hole silly). coffee cabinet , plate cutouts,

lights . unfortunaley the down wash illimunate where the holes in the side panels used to be > odd . it might change when we change lights. if we take out one divan what should the other side have. just an aisle? we need to make switchplate covers out of veneer to cover the now useless video switches leaving only shade at each window. . forward lav door. insulate. . cab door. very top redo fabric where it meets the top. ? air stair.

eric Im considering putting the reverse of the seats. on the psu, . real suede. . is it allowed. ? its the same as the seat leather ? so it should be fire approved.

divan, 1 . cuhsions should be softer. i will give sample. back cushions same. I think it should not be the blue fabric but either a similar side panel or lower panel hermes. . no trim only same fabric. welting. . . not sure of spaces behind captains chair. . it should somehow be a useful work station with desktop computer. .
