Dear Gino,

some possible participants to our event in La Habana suggested me to anticipate the dates to November 6-7, to avoid overlapping with the [Neuroscience 2016 Annual Meeting](#) in Washington, November 11-15.

I have still to check the room availability in the congress palace, but I want to know before if the new dates can be a problem for you or for your sponsor. In this case we can confirm the days of 13-14. Please let me know your opinion and which type of sponsor you think to involve, so to be able to start to prepare an adequate preliminary program and list of participants.

Many thanks for your precious help,
I look forward to hearing from you soon,

warm wishes,
Giuseppe

Dear gino,
Fantastic title!
I will contribute to mix my previous general presentation with all your suggestions.
Prof. Peter Valdès-Sosa must co-chair the congress with us. Please send me your final idea and I will work at it soon. I will keep you informed about the confirmation of the dates. I understand November is a good time for you.
Let's keep in touch!
And my best wishes for Christmas and New Year.
Giuseppe
