Jeffrey

Owner of the GV is Justin Jenkins,. Rumor is he paid \$8M for the plane,
Spent \$200k on interior and \$175k for Paint,
- Prebuy was done in Gulfstream in Palm Beach when Jet Evolution purchased about 6 months ago,.
I sent Susan specs on our GIV for their review and Trade possibility,.
I have not mention the \$5M plus our plane yet,. Waiting for her to respond with Trade Value of the GIV.,

Larry,

Regarding our G-V, please go to our website to view the specs and photos: [REDACTED]
[552/](#)

I found a picture of the crew lavatory after we redid the plating but before the leather was replaced. It will show wear from storage of bags but that leather has now been replaced. The old picture is attached.

I have also attached a picture of the cockpit (high and low resolution so you can zoom in). We redid the crew seats as part of the interior work so the chairs have new sheepskin and the plating was redone for the drink holders. It is hard to see in the picture but the aircraft does have HUD.

I will ask our DOM if he has any pictures of the crew galley and flight attendant jumpseat and a more recent picture of the crew lav.

Feel free to contact me anytime over the holidays if you have any further questions on [REDACTED]

I will be going up to Canada next week to meet our DOM. The freshly overhauled APU is being shipped today by Gulfstream and will be reinstalled by Goderich on the 3rd. If I can't locate extra pictures, I will take more next week for you.

Best regards,
Susan

Susan Kopacz
President
Jet Evolution, LLC
