Jeffrey,

We've had 2 break-ins in our neighborhood the past couple of months, nothing serious, neighborhood teenager issues, the homes that appear to be overlooked are the ones with visible Security cameras, I eventually want to install this system, I received a quote for 10 cameras with access to the cameras on iPhone or iPad. \$4665.00 with a hard drive to record.

Brice mentioned security issues at LSJ,

Why don't we install some cameras for your and Rich Kahn access to keep an eye on the mechanical buildings and overall areas of GSJ and LSJ? That don't impose on your privacy.

Even install some Faux cameras that only you know that don't record,

May detour any bad activities on the island,

I'd imagine this could be done for similar amount per island?

Just a thought

Thx

Larry
