---

i reviewed attached to danny today and he was in favor of this upgrade  
danny explained that we are currently maxed out on amps  
3 phase will divide into thirds so it will increase our ampage dramatically

brad would not budge on price but said he would be able to give us a credit for our inverters of 4,000 so net cost  
would be 33,235  
they would do all prep work next week and in 6 weeks when equipment arrives system will be online in 1 day  
please advise if ok to proceed  
thank you
