Hi Jeffery,

Great talking to you yesterday and thanks so much for the possibility of a grant. I have done you 2 pages which I hope is clear. Perhaps after you have seen this we could chat again about how we proceed and what further information you require. Hyperscanning is very exciting and maybe will give us a better understanding of how we control/influence each other and what the nature of "esoteric light" is.

If you are interested in "Dying" or the changes in consciousness and all the non-local effects that occur when we die (amongst which is also 'light') we can chat further

When we get the hyperscanning project running I would like to scan you and Alain together!!

Very best wishes,
Peter
