Anna is still waiting to hear back from Ericka/DPNR regarding containers on GSJ  
If we can place containers on GSJ  
Then we can proceed with original

plan to relocate genset to shed  
Shed has already been prepared for solar battery install  
I can't see the issue with containers on GSJ  
There is already a container there that belongs to EB  
There has been no mention in any traffic from DPNR indicating for you to remove it.

Jeffrey  
Regarding the sound proofing of the Genset on GSJ  
Would you be Ok with the following  
Relocate Genset into the existing storage shed  
A vented interior wall would need to be built to separate Genset from Solar batteries  
This would achieve three things:  
Sound proofing  
Protect Genset from environment  
Get it out of eyes view  
Relocation would occur after new landscaping shed is built on GSJ  
Danny has confirmed this can be done  
Is this approach ok?
