Jeffrey

attached awning model selection for your review

the manufacture are recommending the Pergola Level model for this application,
is this OK by you?

regards [REDACTED]

Confirming the following dimensions for back terrace

From corner to corner of Terrace is 54.3" L

Inside wall to inside outer wall, 18.6" W

Deck to Molding 13.1" H

opening between each column 9.8"

center to center of each column 10.6"

42' is the maximum single span they can do

do you still wish to break it up into 5 sections?

regards [REDACTED]

Attached Link, email and supporting drawings from Sun Air Awnings for your review

<http://www.sunairawnings.com/pergola-awnings.php>

Miami Awnings have been non responsive to my requests for information, both by phone and Email.

Let me know how you wish to proceed

Hello [REDACTED],

We would have one family of products to recommend. → Pergolas !!

The correct Model is the LEVEL. See attached. Projection of 18 feet is easy, however , the width is too much for a single unit. We would need to divide the 54 ft into two units. We have discretion in how we break that up. Max width per single Unit is 42 feet. Usually we do a symmetrical division of two units of 27 ft wide X 18 projection . This would be called a Level type II. One contiguous piece of fabric Vinyl, 18 X 27. Joint in center covered by a cap.

Educate me about your company, and we can figure out installation.

Figure lead time on these products is 5 to 7 weeks. Note we can enclose sides if desired.

Best Regards,

Jim Wills -- Sales
