Leon

Nice meeting you again. Thank you so much for taking the time to sit down and talk to us. Thank you for your wise words to Bechet. I thought you gave her excellent advice. To my utter surprise and delight she came home and put in the colleges that you suggested and took out the art colleges except for RISD. That's the school that we looked at on Friday the day before we came to look at your college.

Since you seem to have a way with kids because of the way she followed through and listens to you I think I will have you speak to her on all matters on topics that I feel are delicate. I have also told her not to apply to just arts schools but it's always much more helpful if it comes from someone else. Kids nowadays think that their parents have it in for them when in fact, as you know, we always have their best interest at heart. Contrary to what they think we naturally want them to succeed. They never seem to understand this. I loved your college and hands-down it would be Woody's and my first choice for her. Here's hoping Bechet comes to the same conclusion. We have just started the grueling process of looking at colleges but I don't think it's premature to say how much I loved yours.

Hopefully we will see each other again when Bechet goes to your college and if not there then at least at Jeffreys. Take care until then and happy Thanksgiving.
