Dear John

It's been really nice talking to you. I am feeling a lot more comfortable moving forward on this project with your involvement.

Based on the discussion you don't seem to see major blocks against US C of A issuance. The paperwork you received is FAA approved and in order. The main thing you would like to verify with H4 is the extra 3 seats activation to change cabin to 22 seats. Then we will know what process is needed and the buyer can decide he operates 19 or 22 seats private. We will await your feedback on that.

As discussed we target the 1st December to start the PPI. We would obviously appreciate your schedule matching this and should you see any issues please advise us to align accordingly. Both our bosses are keen to close before the end of the year.

Please feel free to add any points in case I missed anything. Once again it's been pleasure talking to you and I do look forward to work with you on this project.

Best regards
Hush Osman

Husham,

I will be unavailable for the next three hours. I will be available after

that and all evening. If we do not make contact today, please send me a number where you can be reached and I will call you early my time on Tuesday morning.

John Shrout

Hi John

Thanks for confirmation.

Can you send me a good number please for you? I tried previously couldn't get through. Am in Germany till Friday so in good time zone for a chat.

Regards
Husham

Hello Larry and Husham,

Thank you both for the package of documents I received concerning the cabin STC, the aux tanks and the cockpit door. I will review these documents on Monday, November 15, 2016, and get back with any questions.

Larry, to answer your question, I have not spoken to Husham yet. Early in this process, I thought we had a phone contact set up but we never made contact. I am open to having a discussion any time a call can be set up that is convenient to all.

Best regards,

John Shrout

Hello John,
Have you spoken to Husham directly yet, explaining what you require from him ref US C Of A?

Can you call me today to discuss?

[REDACTED] cell

Thank you,
Larry Visoski
