Good afternoon Jeffrey,

Any chance of skyping you tomorrow morning your time?

Best wishes,

Peter

Subject:

peter, most researchers study one brain at a time. a kidney cell unless surrounded by other similar cells kills itself. . why does a person in solitary confinement go crazy , if the individual was independnet of other similar organzims around it. . solitary confinement as opposed to hermitage. should have no effect if there werent nec connections severed. ? thoughts?
