Subject: RE: [EXTERNAL] Great St. James Dock Maintenance Request

Date: Mon, 11 Apr 2016 21:15:36 +0000

Attachments: SAJ-1987-57027_(Incompleteness_Letter).pdf

Mrs. Kellerhals:

After review of the submitted information for the above mentioned proposed project, the Corps is requesting additional information to fully evaluate the project. At this time the Corps is enclosing a request for additional information letter.

You are cautioned that work performed below the mean high waterline or ordinary high waterline in waters of the United States, or the discharge of dredged or fill material into adjacent wetlands, without a Department of the Army permit could subject you to enforcement action. Receipt of a U.S. Territory permit does not obviate the requirement for obtaining a Department of the Army permit for the work described above prior to commencing work.

If you have any questions please contact me at your convenience.

Thanks;

Johann M. Sasso
Project Manager
Annex Building, Fundacion Angel Ramos

>> If it requires a Corps permit they should still process the JPA and send it our way. Also, since the NW permits require CZM and/or WQC, depending the area work will be conducted, they should provide a letter informing the Corps that the proposed work does not need the CZM. If it is going to be a hassle don't submit and I will work the case next Monday. Only work on getting the CZM coastal consistency as it will be needed for the evaluation.

>> On a side note, while searching for the previous project permit and talking with Cedeno, I was able to find the original permit (enclosed).
