I am on page 120 already, .   some really great questions.   I really like distinguishing
universes by we live in the " human " one. that meets nicely with science.   on the other
side , when you write , " when light behave as energy" , it needs editing i.e.   light
always behaves as energy,   if you could slow down the radio waves entering your
computer,   you could see them.

   for you,   what if we form a pseudo insurance co with a 100% co pay,   so that the
   hospital can code it in their system correctly.   that hack might have promise.
