## **Gulfstream IV**

Founded in 1958, Gulfstream Aerospace Corporation is a wholly owned subsidiary of General Dynamics. The company has produced more than 1,300 aircraft for corporate, government, private and military customers around the world.

The Gulfstream IV was introduced in 1985 and the biggest differences from the GIII are FAR 36 Stage 3 compliant Rolls Royce Tay 611-8 engine, a four foot longer cabin, and 340 nautical miles extra range.
