To: Gary Kerney
LSJ,LLC

Re: Heli-pad and 5-Palms

Gary,

The following is the quote you requested regarding the two above referenced projects. I have broken the numbers out as described in your email.

- * LSJ will supply all conduit and wire. I will provide labor to install both.
- * I will supply and install all switch gear.
- * LSJ will supply all heli-pad lights. I will install.
- * I will supply and install basic indoor lights for the 5-palms cabana. Exterior sconces supplied by LSJ.

* Total Costs;	
*Heli-pad and 600' feeder	\$31,436.00
*5-Palms and 800' feeder	\$45,230.00

If you have any questions please contact me at 340-344-4808.

Thank You,

Michael J. Glidden

Wire and Conduit Request

Fri, Nov 11, 2011 at 12:58 PM

Marc Dober <[redacted]>
To: [redacted] <[redacted]>

This is from my contact, I will get the wire number today

Marc,

You are asking for 1500 ft of cable and 6000 ft of conduit. If your supposedly using a three phase system with neutral then the amount of cable would be 4 times the amount of conduit, not counting the connection leads. Anyways, I just got pricing from Graybar international, Luis Torres, [787-622-2255](tel:787-622-2255) as follows (he is my Electricians rep at Graybar, PR)

The following are cash prices as of 11/10/11. Cable prices are valid for 24 hrs, don't panic they are stable at this time; but, still only valid for 24 hrs

1500	ft	Cable 4/0 THHN CU	@3.40/ft
6000	ft	Conduit PVC 3" Sch 40	@1.18/ft
1	ea	Long Sweep 90dg 3"	PV@4.10/ea
2	ea	Coupling 3" PVC	@1.75/ea
2	ea	Male Adpater w/lknut	@2.25/ea
24	ea	PVC Glue (quart)	@7.00/ea

a 7% sales tax will be added to the total unless an exemption certificate is provided. I added the other items because you will several of each for the installation. The actual conduit has a belled coupling on one side, so you only need the couplings when you cut for size or when installing the sweeps. The glue is calculated about 1 qt for every 250 ft of 3" conduit (25 connections).

Let me know if I can b of further assistance.

PS: I forgot the price on the #4 ground wire. I will get it for you tomorrow morning. i will also get you pricing from Roger Electric.
