

SIKORSKY S-76C++

s/n 760750

Available for immediate delivery! Currently based in the New York area for viewing.

Placed in service by the owner in March 2010, this S-76 C++ has under 100 hours total time. It represents the highest standard of VIP completion. Throughout the helicopter the absolute attention to detail is evident beginning with the cockpit, the passenger interior and exterior finish. The interior noise level provides the passengers with a sound level comparable to a corporate jet.

The helicopter will deliver with factory warranty and crew training.
