Re: Bunkhouse exterior repairs

Brice,  
Here is the price I came up with to cut the stucco approximately 5 feet high on the north and west sides, remove and dispose of. Cost to remove and re-stucco both side of the house is \$13,800.00

Once the stucco has been removed we can determine how much siding will need to be replaced. The price for new sheathing will be about \$5.00 a square foot.

Let me know how you would like me to proceed.  
Thank you,  
JJ
