Re: [Redacted]
Cellar Drain Piping Replacement

Gentlemen:

We herewith submit our proposal for plumbing repairs at the above referenced property location as outlined in the following:

- To disconnect, cut out & remove from bldg. approx. 55 feet of clogged 3" drain piping in cellar level serving basement catering kitchen in basement level above. Existing main 3" kitchen drain line is clogged with hardened grease and debris. To cap all lengths of removed piping & remove from bldg. for disposal.
- To furnished approx. 55 feet of replacement 3" no hub cast iron drain piping including all fittings and connections in cellar ceiling serving grease trap & sinks in basement kitchen above. After installing 3" piping, to make connection at main 4" house drain.

All of the above described plumbing repairs to be performed for the sum of.....\$2,940.00 & tax.

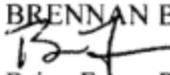

Breakdown-

Material: \$790.00 Labor: \$2,150.00

Note:

1. This proposal does not include labor expended on 12-08-10.

Sincerely,
BRENNAN BROS. CO., INC.

Brian Freer, President
