

Les,

I am truly sorry to hear that you have been the target of an extortion attempt by the same girl that has tried to extort Ehud Barak , Alan dershowitz and prince Andrew. I guess that she is either using bottom feeder , or she is being used by them.

I am certain that John Zeiger has transmitted my suggestion that you and I sit down together. I was tol that that family had no interest in a meeting. As I did not ask for meeting with family, I find that answer unsatisfactory.

I have never once, not once, done anything , but protect your interests. I owe a great debt to you , as frankly you owe to me. I was not surprised by your reticence to sit with me when my bad judgement with women became a cause celebre. As Im sure you recall , you didn't sit with your mother or sister or sharon , when a conflict arose. as I did it for you. you didn't sit with Jack Kessler , Stanley or stanleys son. I did it for you. I never asked to see you , I never sent you a request. Abigail and I sat, she asked many questions. She made many unfair , aggressive and false accusations. None of which could have been fully answered without violating a confidence with you. Many of which I did not answer. Some that I did. You and I had " gang stuff " for over 15 years. A great deal of it, that she was unaware of. I had no intention of divulging any confidence of ours , no matter what accusations she made. And she made quite a few. As Im sure she told you , I didn't argue with her , threaten her , or you, or in any way did not behave as I had always. Putting your interests first. I always told you I would never under any circumstances give it up, or put you in harms way , no matter who , what or when. I would guess that if things have not changed much as I know you well that you will find a need to show this letter to Abigail. If so. I would ask that you not raise your shoulders purse your lips and tell her I have no idea what he means. Is Jeffrey asking for something, " there must be more to it" we don't know what we don't know.
