Jeffrey Epstein: A Foundation for Philanthropy

Jeffrey Epstein is known to some as a financier, an American money manager with years of experience in his profession. Mr. Epstein was long associated with Bear Stearns, as an option trader, specializing in mathematical models such as the Black-Scholes option-pricing and later as a products division specialist, advising high net worth clients on tax strategies. ~~and~~ After founding his own firm, his work in finance led him to a lengthy and varied career. He is also well-known for his work in science philanthropy. Mr. Epstein has contributed to many ~~some~~ important scientific endeavors and conferences. His work has involved the support of eminent scientists around the world, Nobel laureates and well known ~~sueh~~ luminaries as Stephen Hawking. ~~we will say more about Mr. Epstein's conferences, and their famous attendees, later on.~~

A Foundation Devoted to Science ~~and~~ Philanthropy

Jeffrey Epstein's philanthropy is embodied in ~~The heart of what Mr. Epstein does involves~~ his Jeffrey Epstein VI Foundation. ~~The~~ this organization ~~foundation was founded in 2000 and~~ exists for one basic purpose: ~~Its goal is~~ to provide funding and financial underwriting for endeavors related to cutting edge science and science education. As the Foundation has grown in prestige and in influence, it has also grown to provide funding for youth initiatives, medical facilities, the arts, and more.

The Program for Evolutionary Dynamics

~~For an example of the Foundation in action, look back to~~ In 2003, the Jeffrey Epstein VI Foundation established and to the central role that Epstein played in establishing the Program for Evolutionary Dynamics, at Harvard University with a ~~This program was made possible, in large part, by a \$30 million grant donation from Epstein's Foundation.~~ Much of the foundation's work and support is devoted to research at this dynamic program. The program ~~which~~ studies evolution from a purely ~~mathematical and~~ biochemical point of view and ~~continues to do work to this day, and~~ its research has furthered our general understanding of medicine, genetics, and human origins.

More About the Work of the Jeffrey Epstein VI Foundation

The Program is ~~directed~~ by Dr. Martin Nowak, Professor of Mathematics and Theoretical Biology at Harvard University. Dr. Nowak is renowned for his work on evolution theory including the theory of cooperation as a driving force for evolution in biological systems. ~~is responsible for a lot of cutting edge research. This~~ Dr. Nowak's research team at the Program for Evolutionary Dynamics also ~~includes developed~~ the first mathematical model for the kinetic energy of cancer cells within the human body—vital for furthering humankind's understanding of how cancer works, and how it might get treated and have advanced the understanding of how original life first forms from

RNA chains. None of this work would have been prove-possible without the financial support of the Jeffrey Epstein VI Foundation. ~~Mr. Epstein.~~

Other Science Initiatives

The Jeffrey Mr. Epstein VI Foundation has also contributed to many other important avenues of scientific inquiry. ~~This includ~~inges medical research. The list entails genetic research, undertaken to develop cures for such conditions as Crohn's, Alzheimer's, and ovarian cancer.

Support of Leading Scientists

In addition to Dr. Martin Nowak, Jeffrey Epstein has supported the work of countless eminent scientists and Nobel Laureats around the world. ~~That Mr. Epstein has worked in support of Martin Nowak is significant. Nowak is one of the biggest names in scientific research today. Currently, his position is Professor of Mathematics and Theoretical Biology at Harvard, in addition to his work as Director of the Program for Evolutionary Dynamics. His is not the only name with which Mr. Epstein is associated, however.~~

In list ~~In fact, Mr. Epstein has supported the research of of~~ scientists includes like Gerald Edelman, Murray Gell-Mann, Stephen Hawking, Kip Thorne, Marvin Minsky, Lawrence Krauss, and Gregory Benford.

World Conferences

~~In addition to directly sponsoring this research,~~ the Jeffrey Epstein VI Foundation also organizes and underwrites major scientific conferences, bringing together the best minds together to summarize and advance pivotal subjects. The conferences typically take place in among them a conference on St. Thomas, in the US Virgin Islands, where the foundation is based and have featured many such scientists and Nobel Laureates, as like Gerard 't Hooft, David Gross, and Frank Wilczek and. ~~Other conference attendees included~~ theoretical physicists Stephen Hawking and Lawrence Krauss; the conferences have covered topics ranging from like unified gravity theory, neuroscience, and even artificial intelligence, language theory and global threats to the Earth.

The Evolution of a Foundation

Initially, the Jeffrey Epstein VI Foundation was established to support ongoing research in science, particularly evolutionary and genetic fields. The scope of the Foundation's work has only grown, however, and now encompasses a wide range of enterprises ranging from education to the arts. In 2012 alone, the Foundation has underwritten such organizations as Mount Sinai Hospital, the Crohn & Colitis Foundation of America, The National Multiple Sclerosis Society, the New York Academy of Art, and the Metropolitan Museum.

The list of past recipients is just as eclectic, and as illustrious. ~~In 2011, t~~The Jeffrey Epstein VI Foundation ~~supported has done much to underwrite numerous~~ youth organizations ~~and initiatives; for example. A partial list of these organizations~~ including ~~es~~ Youth Lifeline America, Zero Tolerance Basketball, ~~the Rising Steel Youth Orchestra, the St. Thomas YWCA, the St. Thomas Baseball Explorers and countless~~ ~~various~~ high schools, ~~and~~ elementary schools ~~colleges, universities and graduate schools~~ across the United States and the world.

In addition, Mr. Epstein's organization has ~~been an active supporter of supported~~ world peace accords ~~and peace initiatives—a noble initiative if ever there was one!~~ There are ~~multiple organizations, devoted to peace and harmony, which have received support from the Foundation.~~ Some examples include the International Peace Institute, ~~which has its roots in the United Nations and played a critical role in the Oslo Peace Accords.~~ Humanity+, and more.

Jeffrey Epstein: Supporting Education and the Arts

The Jeffrey Epstein VI Foundation ultimately came to branch out from its support of science and research, ~~and~~ to provide funding for ~~education in other fields of study including business and economics. other cause and organizations. This includes a number of educational organizations. We have already noted that the Foundation has helped to fund different elementary and high schools; more educational organizations served include~~ To this end, the foundation has supported renowned institutions around the world ~~including,~~ the Stockholm School of Economics, ~~Columbia University, Harvard University, Cornell University, Princeton University,~~ Stetson University, and the Department of Education in the U.S. Virgin Islands.

~~Thus, the Foundation supports science, and it supports education—but its list of supported organizations and causes goes on from there.~~ Mr. Epstein is also a believer in the importance of the arts, and he is ~~an~~ adamant ~~supporter. to support the arts in whatever ways he can.~~ This includes endowments to museums, youth orchestras ~~and art institutes, and more.~~ His Foundation even helped to underwrite the famous Tribeca Film Festival.

There are a number of other organizations that Mr. Epstein and his Foundation have supported—some of which do not neatly fit into any of the categories listed above. A partial list of these organizations might include:

- The Humane Society of St. Thomas
- Community Foundation of the Virgin Islands
- United Way of St. Thomas-St. John
- Family Resources Center, Inc.
- The Criminal Justice Executive Institute
- ~~Various~~ YMCA's and YWCA's across the countrys
- Various special education programs

The Man Behind the Foundation

Through his work as a financier and money manager, Mr. Epstein has learned ~~what it means~~ to allocate resources ~~so that they are used most~~ prudently and effectively. ~~It's~~ This is the a skill set that he draws upon as he seeks to support the wide range of important and different causes through his Foundation. ~~The Foundation is a primary supporter of many organizations, ranging from scientific enterprises to artistic endeavors.~~

In addition to the causes he supports, Jeffrey Epstein's interests and passions are reflected in the organizations that he belongs to. For example, he was a former board member of Rockefeller University, one of the most prestigious graduate science universities in the country. He was a former member of the New York Academy of Science, a former member of the Council of Foreign Relations, the Trilateral Commission, an active member of the Edge Organization and sits on the committee of the Mind, Brain and Behavior Committee at Harvard University.

~~The sheer array of causes and organizations here is impressive—and it says something about the varied interests of Jeffrey Epstein himself. Indeed, he may have founded the Jeffrey Epstein VI Foundation as a way of supporting scientific study and inquiry, but the man's own interests are too numerous to confine so easily. Jeffrey Epstein is a proud philanthropist, on behalf of all of these many causes.~~

Jeffrey Epstein VI Foundation: Philanthropy for Science

Increasingly, scientists are coming to depend on private donors to fund their research; while grant money is in increasingly short supply, science philanthropy is on the rise. What this means is that scientists are coming to seek out more unconventional sources of funding for the work that they do. What most scientists are looking for is an independent financial backer like **Jeffrey Epstein** whose Jeffrey Epstein VI Foundation has underwritten numerous research laboratories, science departments, many and scientific conferences across the country and capable of establishing new university departments such as the Program for Evolutionary Dynamics at Harvard University, and also an evolutionary science program at Harvard.

The Jeffrey Epstein VI Foundation Supports Martin Nowak

There are many several prestigious scientists who have received financial underwriting from the Foundation. ~~One~~ and one of them is Dr. Martin Nowak. Currently, Dr. Nowak serves as a Professor of Mathematics and Theoretical Biology at Harvard University. ~~Additionally, he was r~~ Recently, Dr. Nowak was also a keynote speaker at Templeton University's dialogue on the intersection of science and religious faith.

Dr. Nowak is also the ~~plays another key role at Harvard University, which is as the Managing Director for of its~~ Program on Evolutionary Dynamics at Harvard University. This groundbreaking Program has conducted vital research on into genetics and human origins, studying the concept of evolution from the standpoint of mathematical and biochemical models. ~~The Program was launched in 2003, via a donation from the Jeffrey Epstein VI Foundation.~~

More About Dr. Nowak

In addition to his current work at Harvard, ~~funded by Mr. Epstein's Foundation,~~ Dr. Nowak is well-known for his 1990 research with Robert May, examining and ~~In this research, Dr. Nowak sought to~~ explaining the delay between HIV infection and AIDS onset. He did so through the use of evolutionary models that has subsequently received confirmation through repeated tests and experimentation.

Further research interests of Dr. Nowak include: sSomatic evolution of cancer; stem cells and tissue architecture; genetic redundancy; the evolution of language, of graph theory, and of game theory; the evolution of cooperation and fairness; and pre-life conditions.

~~Jeffrey Epstein: Further Funding for Martin Nowak~~

Mr. Epstein has also supported ~~Dr. the work of Martin Nowak's for some time now. He helped to fund his~~ original research; on the origin of life and RNA replication on Earth. ~~He also funded as well as~~ his 2004 research at Princeton's Institute for Advanced Study.

The list of scientists with whom Jeffrey Epstein is affiliated includes a wide variety of names, including such famous thinkers as Dr. Stephen Hawking! The Jeffrey Epstein VI Foundation supports the research done by numerous scientists in numerous fields. The Jeffrey Epstein VI Foundation is a leading name in science philanthropy.

(blog page)

Jeffrey Epstein VI Foundation: Philanthropy for Medicine

The **Jeffrey Epstein VI Foundation** began as a vehicle for science philanthropy. ~~Initially, much of its support was in the fields of physics and neuroscience. However as~~ the Foundation ~~has~~ matured, it ~~has also~~ broadened its scope ~~to support a wide range of cutting edge, and now much of its philanthropy is conducted on behalf of~~ medical research, treatments, and cures, ~~particularly in the area of genetics. This includes some crucial partnerships with leading medical researchers, and with organizations such as the American Cancer Society.~~

The Foundation's Support of Cancer Research

There ~~is a pair of~~ ~~are two common~~ dilemmas that restrict the treatment of cancer today. First, there is the reality that many therapies, such as chemotherapies and radiation treatments, can have adverse effects on otherwise healthy cells, to the extent that they actually kill the person before beating the cancer. The second problem is ~~even more insidious; this is the reality~~ that many cancer cells are able to quickly respond to a new treatment, ~~genetically~~ adapting and ultimately becoming immune to it.

New research is seeking to curb the impact of these cellular mutations. New advances in circulating tumor cell technology (CTC), spearheaded by Dr. Daniel Haber, of Massachusetts General Hospital Cancer Center, and Dr. Mehmet Toner, of the Center for BioMicroElectroMechanical Systems, confront this issue head on. The research these scientists have undertaken is underwritten by ~~the joint efforts of~~ the American Cancer Society and ~~has received support from~~ the **Jeffrey Epstein VI Foundation**.

The Foundation's Support of CTC Technology

CTC technology is still maturing, but it poses significant reason for optimism. ~~Most basically, T~~the technology entails a simple blood test, which scientists can use to examine potential ~~genetic~~ adaptations and mutations on a cellular level. These adaptations are then thoroughly documented, and scientists are then able to treat cancer using medicines that are specifically meant to address particular cellular abnormalities.

The use of CTC technology is one of the most promising fields in cancer research.

Jeffrey Epstein VI Foundation: Researching for Cures

This work, with the American Cancer Society, is just one aspect of the Foundation's commitment for eliminating disease. To date, the Jeffrey Epstein VI Foundation has offered support to several medical facilities and laboratories across the world. A partial list of these medical organizations includes: The National ~~Multiple Sclerosis S~~-Society, Mount Sinai Hospital, ~~the~~ Crohn & Colitis Foundation of America, Alzheimer's Association, and Ovarian Cancer Research Fund.

The bottom line is that the Jeffrey Epstein VI Foundation does much to support important medical research. Indeed, medicine is something for which Jeffrey Epstein is passionate. The Jeffrey Epstein VI Foundation supports medical research across different disciplines.

Jeffrey Epstein VI Foundation: Philanthropy for Thought

It has received recognition as the world's greatest think tank. It has won accolades from such prestigious publications as *The Guardian* and *The Observer*. It houses more than 600 of the world's greatest minds—and, it has received the financial support of philanthropic organizations like the Jeffrey Epstein VI Foundation. It is The Edge Foundation, and [gathers together some of the greatest minds in the sciences and social sciences for the purposes of discourse, debate and a sharing of cutting edge concepts with the public at large.](#) ~~the work it does in the realms of science and thought is truly important.~~

~~The Jeffrey Epstein VI Foundation is an organization that seeks to underwrite scientific research. In addition to the work done in laboratories, the Foundation also underwrites the efforts of think tanks, like this one.~~

The Jeffrey Epstein VI Foundation Supports Think Tanks

The Edge Foundation was founded in 1996, by ~~a man named~~ John Brockman, ~~Brockman has long stood as~~ a leading author, and an agent of social change; his reputation is for advocating on behalf of all things thought-provoking or avant-garde. His vision was to start an online forum through which the world's brightest minds might share their ideas—and that is exactly what he did.

His vision is what led to the founding of The Edge, a website that features contributions from the world's smartest people. This is not just a place where these men and women share their every passing flight of fancy, however. The Jeffrey Epstein VI Foundation supports the organization because, rather than encourage random ideas, it encourages cutting-edge ideas—ideas intended to promote scientific advancement.

The Members of the Think Tank

The work done by this think tank includes many well-known thinkers, from many different disciplines. The list includes many Nobel Laureates. Among them are physicist Frank Wilczek, chemist Kary Mullis, theoretician Gerard 't Hooft, and more. The Edge Foundation also houses well-known writers such as Richard Dawkins, Brian Greene, Ian McEwan, and many others.

Jeffrey Epstein VI Foundation: Fostering Conversation

This think tank is not an exclusive gaggle of thinkers. A primarily online endeavor, its doors are open to the public. Anyone can stop by the site and seek to participate, simply by reading essays and keeping tabs on the ongoing, daily conversations.

Jeffrey Epstein and his organization, The Jeffrey Epstein VI Foundation, are more than happy to financially sponsor this important work. That is because Jeffrey Epstein—a

long-time proponent of science and learning—believes in the importance of thought-centered conversation. The Edge Foundation, too, believes in the power of thought, and the importance of conversation.
