

SUMMARY OF ENHANCED EDUCATION

Enhanced Education is a private, tax-exempt charitable foundation incorporated in the U.S. Virgin Islands under the name J. Epstein Virgin Islands Foundation, Inc. (the "Foundation"). The Foundation was incorporated over 13 years ago in the U.S. Virgin Islands on July 13, 2000. It has three Trustees, who are Jeffrey Epstein, Darren Indyke and Erika Kellerhals. Those same individuals are the corporate officers of the Foundation. Jeffrey Epstein is President, Darren Indyke is Vice President and Erika Kellerhals is Treasurer and Secretary. Copies of the Foundation's Articles of Incorporation, its Certificate of Doing Business as Enhanced Education and the letter from the IRS granting the Foundation tax-exempt status are attached.

The Foundation uses its funds, among other things, to make contributions to support other not-for-profit organizations exempt from taxation under the U.S. Internal Revenue Code. The Foundation has a strong emphasis in the support of scientific, medical, academic, educational and artistic philanthropy. Among the not-for-profit entities supported by the Foundation over the past three years are:

Afya Foundation	\$ 5,000
Alzheimer's Association	\$ 25,000
Ballet Palm Beach	\$ 5,000
Bard High School Early College	\$ 125,000
Biosocial Research Foundation	\$ 20,000
Columbia University Mailman School of Public Health	\$ 100,000
Columbia University College of Dental Medicine	\$ 50,000
Crohn's & Colitis Foundation of America	\$ 30,000
Dubin Breast Center	\$ 125,000
Dunbar Center, Inc.	\$ 10,000
Edge Foundation, Inc.	\$ 75,000
Elton Johns AIDS Foundation	\$ 5,000
Florida Classical Ballet Theater	\$ 5,000
Humanity +	\$ 65,000
Independent Feature Project, Inc.	\$ 7,000
Independent Filmmaker Project	\$ 17,240
International Peace Institute Inc.	\$ 125,000
J/P Haitian Relief Organization	\$ 5,000
Maccabi World Union, Inc.	\$ 60,000
Melanoma Research Alliance	\$2,000,000
Massachusetts Institute of Technology	\$ 150,000
Mount Sinai Hospital	\$ 50,000
Mount Sinai School of Medicine	\$ 50,000
Motion Picture and Television Foundation	\$ 15,000
Museum of the Rockies, Paleontology	\$ 10,000
National MS Society	\$ 25,000
NEURO.tv, Inc.	\$ 25,000
New York Academy of Art	\$ 25,000

New York Hall of Science	\$ 10,000
Ovarian Cancer Research Fund	\$ 50,000
See Forever Foundation	\$ 10,000
Stockholm School Of Economics	\$ 135,000
The American Foundation for the University of British Columbia	\$ 25,000
The Criminal Justice Executive Institute	\$ 10,000
The Hasty Pudding Institute of 1770	\$ 75,000
The Institute for Music & Brain Science	\$ 25,000
The Metropolitan Museum Of Art	\$ 2,500
The New School	\$ 7,000
Tribeca Film Institute	\$ 25,000
UJA - Federation of New York	\$ 50,000
WildAid, Inc.	\$ 50,000
Yeshiva Tifereth Moshe	<u>\$ 25,000</u>
 Total	 \$3,708,740

In addition, over the past several years the Foundation and its predecessor foundations have provided significant support to [Harvard University](#)'s Program for Evolutionary Dynamics, which uses mathematics to study such subjects as evolutionary biology, viruses, and cancer. They have also funded, in part, the [Institute for Advanced Study](#) at [Princeton](#) University. The Foundation has also wholly sponsored and participated in scientific symposiums held in the U.S. Virgin Islands, enabling interaction among Nobel Laureates and faculty, postdoctoral researchers, graduate and undergraduate students, educators and the public. The sponsored symposiums include:

- **Artificial Intelligence Symposium** held at the University of the Virgin Islands, on April 14-17, 2002. The symposium was open to UVI faculty and students majoring in computing science. The symposium pertained to various forms of artificial intelligence and included thirty of the top computing scientists from around the country.
- **Physics Symposium** "Confronting Gravity" March 16-21, 2006 – The symposium dealt with the fields of Cosmology and Astrophysics and research toward the understanding of the universe. The symposium provided an interdisciplinary framework for interactions between five Nobel Laureates and faculty, postdoctoral researchers, graduate and undergraduate students, educators and the public.
- **Coping with Future Catastrophes** December 9-12, 2011 - The symposium was organized by **Dr. Marvin Minsky** as a conference patterned after the book "Our Final Hour" by Martin Rees—about the future disasters that may arise in the face of growing populations, new technologies and new social network systems.

The Foundation continues to support the research of Nobel laureates at postdoctoral and graduate levels, and has provided substantial support to individual scientists, including but not limited to cognitive psychologists and scientists such as Marvin Minsky and Stephen Kosslyn, as well as Howard Gardner, a theoretical biologist.
