We are pleased to submit our proposal on the following:

*This quote is to provide the FCC License for a 6 GHz microwave link between Sandia Crest and Zorro Ranch for transporting a maximum of 8 each T-1 circuits. The existing 2.4 GHz microwave equipment will be removed prior to installing the new equipment to utilize the existing mounting locations and some hardware on Sandia Crest and at Zorro Ranch*

*Advanced Communications and Electronics will provide an Octal T-1 interface for the existing Adtran router at the Main House and configure for the router for the new services from twTelecom that are to be delivered and installed at the TeleBeeper Radio Site on Sandia Crest.*

*Zorro Ranch will provide a man-lift and add a 10 foot section of pipe to the current pipe mount at the Ranch HVAC location where the 2.4 GHz antenna is installed. This will meet the elevation requirements for installing the 6 GHz link at that location.*

*Advanced Communications will provide any troubleshooting if required for the T-1's that are to be delivered to the TeleBeeper building on Sandia Crest by twTelecom at our posted hourly rates.*

*Advanced Communications does not assume any responsibility for the structural integrity of the Telebeeper tower at Sandia Crest and the pipe mount provided at Zorro Ranch.*
