i thought that a premium price denominated in dollars is the very minimum for doing a trade. . this is again silly, i am aware of the convention but as i need to tell accounting . how much to pay, it makes little sense for me to tell rich kahn pay 3.5. % of JPY notional.

Jeffrey – we spoke to trading, and given where skew and vols are, it made sense to price up call spreads on JPY/KRO.

Please find below indicative pricing for 6, 9, and 12 month call spreads on JPY/KRO.

Note - there is likely to be more liquidity on this currency pair during Asia market hours, and KRO is the offshore currency of KRW.
