I can not get a carpet to match the Stark carpet in time nor for the same or similar cost.

However, I had a sample fabricated (is being delivered to me tomorrow morning via fed ex) is a tone on tone using a pattern that you and I first looked at.

Personally, I believe it will look fantastic. It will pick up the coloration of the wood and add an interest to the carpet.

We will take the carpet sample and place it under one of the seats and have a piece of the woodwork included so that you get an overall.

To what address can I send the carpet for a SATURDAY delivery to you?

Separately, we need to install the 100VAc outlets in the lower side panels. Some clients want them outboard of the seats so that they do not see them when they are not in use, other want them readily noticeable. What would you like?

At present they are outboard of the seats at the bottom portion of the panel / out of view until you track the seat to gain access.

99% of our clients keep them out of plane sight.

Please let me know so that we can cover these panels.

Thanks.
