Dear Jeffrey

We are preparing all orders to be delivered from March to April, the carpet for your bedroom should be delivered for the end of March

I went to your apartment to place the furniture with the new layout in the main living room, it will be a real change, I like it. I didn't buy the burned table as I think the small round desk is perfect in the corner of the round part of the Sitting room

Please find the quotation to have a new TV and home cinema in the Study

You have to add to this estimate about 30.0000 € for a new oak cornice on the top of the actual bookcase to hide the screen (12' wide), some staff work as the projector will be larger than the old one, painting of the ceiling..., so it will be a cost of about 80.000 € including the taxes.

I think you will only have the study of the air conditioning audit around the 8th of January

I will send you some others samples for the 2 sofas fabric in the Living room, I didn't find a thick colored chenille, I will propose a few others materials, and particularly a silk/cotton velvet in a melon color which could be very nice

About a recommendation for an architect, I saw a very nice project from a Brazilian one who has an agency in NY, I like his work, but I need to find his name, I will let you know at the end of the week, I have it in my country house

I hope you are find

Best for you

jean
