Jeffrey,

I am working diligently on both these items, working with the manufacturer (Goodrich) on the TV, our engineer on the audio as well as two manufacturers of air gasper.

Additionally, I have discussed the gasper issue with our metal plater and if we end up getting new gaspers, he will metal plate them at no charge.

I have a conference call with Goodrich's engineer tomorrow morning to understand this particular monitor as I want to determine if we have a bad monitor (this happens in aviation) or otherwise.

Lastly, I have emailed with Larry and will identify what day next week is best for both Dan and I to make changes to the audio system next week at Teterboro.

Lastly, we will replace the water saver cartridge in the aft lavatory faucet next week during our visit.

I am heading into Manhatan shortly, so if you need to speak with me, I will be on my cell [redacted]
