Jeffrey,
Attached Photos of new fabricated parts for Boeing..

Below message received from Jim Miller Sultan's assistant, Jim wants to view interior of Boeing only if you approve?.

I finish my Simulator training 1pm each day next week, I am able to meet jim at Boeing to show him the aircraft.

Do you approve?

From Jim Miller:
Hi Larry,

It looks like I will leave California next weekend to return to UAE. If the 727 becomes available (just for a quick look around) sometime in the next 10 days let me know and I will tweak my trip to pass by it.

If not I will make a trip out later.

It has been a lot of fun being in California out of the Gulf heat for the last couple of weeks!

All the best,
JIM
Got this this morning Lar

Subject: update

I have six pieces done and on-site out of the 8 total. The last two aluminum T are in work. The shop is telling me they will be done in a week.

I have the sheet metal guys installing the pieces, fabricating the skins and changing the forward engine mount now.

A few pictures for you to look at.
