THE LISTENING SECTION

The section assesses your ability to understand lectures and conversations in English. You will hear each lecture and conversation twice. Each lecture or conversation will be followed by a series of questions, typically about the main idea and details. Answer the questions in the order they appear. You may use any of the notes you take while you listen and use your notes to help you answer the questions.

On the actual test, you will have 20 minutes to answer the questions. The time will not run down while you listen to the test material. You will see screens similar to the ones shown on the next page to introduce questions and answer choices, such as "listen again to."

To most closely simulate the actual test conditions, listen to the CD and then set a timer to take a break at the end of 20 minutes. You will need to press the CD after each question, but remember, give yourself only 20 minutes for the entire section. Begin now.
