Inline-Images: photo.JPG

you should see the 95 years old thai king now .He looks 20 years younger,has gained weight,nice smooth skin broad shoulders,what the Sirajai Hospital has done is close to a miracle
But I cannot get into the clinic,I like to find out what they are feeding him. Fidel is another example he is also looking about 10 years younger, is there any way to find out we have to keep trying.
