attached 2 screen shots from ATT microcell website. According to Janusz, MC worked yesterday as he saw MC next to AT&T in the left top corner on his phone. Today it was not working, so i reactivated microcell again. The activation is in process and the MC should work from 30 to 90 min from now. Janusz will test via his phone and when he confirms it is working we will ask JE and the girls to restart their phones for microcell to connect.
