---

Good morning, Jeffrey. Ada sourced the attached. Please review in the context of the family office "Art professional" position we have spoken about. Heather is more senior in experience than what we might have looked for but because of her level and where she comes from she could potentially be integrated in Leon's investing process. Her skill set would also allow for the elimination or at least a diminishment of need for outside art counsel.

RE Monday, would 10am work for you? Thanks,E.
