

ARCHITECT

HANDEL ARCHITECTS

Handel Architects LLP is a full-service design firm with over 100 architects, interior designers, and LEED accredited professionals in New York and San Francisco. They are recognized leaders in multi-unit residential design with over 1.6 million square feet of space built.

PHILOSOPHY

Believing that powerful, innovative, affective architecture starts with the city, Handel Architects has developed a portfolio of award-winning work by thoroughly examining the social, economic, political, and technological factors affecting the metropolis surrounding each individual building. Rather than reacting against these forces, Handel uses such elements to inform and propel their designs.

SERVICES

The firm produces work for public, institutional, commercial, and developmental clients. Handel Architects' depth of services includes: Programming, Master Planning, Architectural Design, Interior Design, Renovation, Consultant Selection, Value Engineering, and Construction Administration.

An extensive portfolio can be found on their corporate website.
