Handrails_project.JPG

Greetings Mr. Epstein,

In response to your directive that the canary should be centered on the opening, Gary advised that it was necessary to plant the palm far enough away from the master suite so the palm fronds do not interfere with the roof gutters.

Brian has been advised to place buffers between the floating dock and the pilings.

Photographs of January 31, 2011, for your review and comments:

- Landscaping behind master suite progress
- Dock pad excavation
- Entry way project - the additional boulders and the machine are on site to begin repositioning the boulders into place tomorrow
- Ion's work on the faceplates in the cottages
- Master suite foyer sconces installed
- Master suite tub room
- Stairs to master suite tiling
- Outdoor tub
- Nanna painting
- Handrails

Respectfully submitted,

Daphne
