Ok – we will hold off on the paving. What about comments on the living room location? I attached the three options I sent early last week, with the living room in different locations relative to the main residence and pool. Do you still want to consider moving the stair to just north of the office? With the living room floor height raised 3', we need to adjust the terraces. We also need to add the boulder wall, and of course address the connection to the library, but I was hoping to hear back on the living room location.,,

Thanks,
Warwick

No drains no cuts . Unfortunately not anything but a two click sketch . Please stop

Sorry for all the typos .Sent from my iPhone

Jeffrey,

Did you have any comments on the paving images (attached again), so we can put them together as a sketch for review?
