Hi Larry,

Enclosed is a quotation for a very nicely appointed 429. I have enclosed an interior rendering which reflects the quote (429 interior dressed up), except I removed the moving map display on the fwd bulkhead (shown in the print). I also added a view with a different color insert, and a photo of that set up. The quote includes line item pricing.....you may not require the upgraded battery and generator....if you have longer flights, I wouldn't go with it....if you'll be doing a lot of short hops, you should consider it.

As always, don't hesitate to call with any questions,

Jeanette L. Eaton
