---

Hello.....

Attached, is a very large project in Zambia, which if you/we get involved in, my friend Jorge Maciel says will open the door to many other projects in Zambia. Again,all of this is done at Government Level,but things do have to happen at a fast speed.

Also,when desired he can get Government Invitations for you and your Investors. He can also set up meeting with the Zambia Ambassador in DC, if you need additional information or comfort.

Jorge also has a direct relationship with the leadership in Mozambique, which as you know has a lot of Natural Gas and Coal.

Sincerely,  
Greg Brown
