hi jeffrey,

i attached here two more images i did in photoshop (no1 and no2) (the last three pictures are from the palace) i can do more but it is pretty complicate to do it because i dont have good pictures of the hampton court palace. i think if we do this painting on the walls, its going to look pretty close like in the pictures from hampton palace...

i noticed in the pictures that everything is painting, even the crown moldings..thats why when the painting goes over the moldings you cant see any difference..

.....
if you decide to do that painting on the walls, i can do it all..figures too but i have to do oil painting/ we will need also some good pictures of hampton palace paintings

i think its going to take some time to do this project., even preparing the surface..we have to remove the wax first... maybe i can use michael to help me with that.

if you have other images in mind you can send them to me and i'll try to put on the walls in photoshop and send them back to you.

do you want me to start anything?

thank you,
ion
