---

dear Jeffrey

Just to keep you updated

The TV will be delivered this week so will will do the job this week.

One point i want to make clear :

You gave me you agreement on the master bedroom only.

What do we do for the office. I know the crestron is dead too. Do you want to wait for the bedroom to be finished to discuss about that.

Do you want me to make an estimate for the office too ? If yes, what to we do ? Only change the crestron to control the old equipement ?  
Do we change the projector for a big tv too ?

Please let me know, because if i also need to order a tv for the office, we need to see together how you to place it.

Best regards

Philippe
