Dear [REDACTED]

Regarding a few issues...

1. *Health Services*

Please be advised that we require all new students to complete and return health forms. You must also complete certain medical requirements (immunizations, physicals, etc.) Based on certain deadlines and specific time frames for vaccinations, you must start addressing these requirements now. Please go to the following address **immediately**: www.cumc.columbia.edu/student/health/forms.html#prereg

Go to 2012-13 Pre-Registration Booklet and Forms. Download the forms and complete them in a timely manner. Please remember the deadline is **July 13, 2012. You must complete ALL health requirements before arriving on campus (not just submitting forms but also physicals and immunizations). YOU WILL NOT BE ALLOWED TO PARTICIPATE IN CLASSES IF YOU HAVE NOT MET THESE REQUIREMENTS.** All students are encouraged to visit the *Columbia University Health & Related Services* web site to educate themselves about what services are available to students at Columbia University. The address is www.cumc.columbia.edu/student/health.

2. *Change of Address/Out of the Country*

Anyone who has a change of address should notify our office in writing, including the dates the address will be valid, and the new telephone number. Anyone leaving North America should still respond to all email from Columbia University.

3. *Visa Status*

Based on your current status: awaiting Asylum decision with I-589 pending, you **can** attend CDM without applying for an F1 visa. You should, however, send us copies of your current immigrations status documents (e.g. I-94, passport, copy of I-589, or anything you have available) for our records.

4. *Computer Requirements*

CDM requires that all students own a laptop computer. The computer requirements and other pertinent information can be found at: <http://dental.columbia.edu/computers/>.

Any question about the items discussed or other issues that are of concern can be sent directly to me at [REDACTED] or you may contact Dr. Zubiaurre at [REDACTED]. In the mean time, enjoy the upcoming spring! I know that I speak for the entire Columbia community when I say that we are looking forward to having you with us in August.

Thanks

Sandi

Sandra Garcia, M.A.
