Issue 12, 2012

 Wolfram Insider

Want to build interactive interfaces quickly and easily?

Mathematica Experts Live: Dynamic Interfaces Q&A—July 24

Need help adding dynamic elements to your work or interactively exploring text, math, graphics, and sound? Join Wolfram developers for a live Q&A session as they answer your questions and code examples in real time.

On-Demand Training Courses

Your Resource for Learning Wolfram Technologies

Free on-demand courses give you immediate access to quick-start and in-depth training on your own schedule.

 [On-Demand Training Courses](#)

Wolfram Training courses cover *Mathematica*, the Computable Document Format (CDF), and other Wolfram technologies for engineering, finance, software development, and other areas.

[Boost your skills now »](#)

Featured On-Demand Courses

 [Wolfram SystemModeler: Quick Start](#)

Wolfram SystemModeler: Quick Start »

Find out how you can create and analyze models of electrical, mechanical, thermal, biochemical, and other systems.

 [Wolfram Finance Platform: Quick Start](#)

Wolfram Finance Platform: Quick Start »

Discover an integrated workflow for obtaining financial data, analyzing it with built-in finance

 [Mathematica for University Research](#)

Mathematica for University Research »

Explore *Mathematica*'s flexible programming language, high-performance computing support,

and statistical functions, and exporting results as reports.

and publishing and deployment options.

Live Courses

Wolfram Training offers live courses online, in classrooms around the world, and at your organization. Online courses include live chat and instructor-led Q&A.
