Subject: Hi From [REDACTED]

To: [Jeffrey@jeffreyepstein.org](mailto:Jeffrey@jeffreyepstein.org)

Jeffrey,

I hope this email finds you well. Anthony keeps me in the loop of the events in everyone's lives back in NY and I see a lot of my Mom. I have been busy with two start-up business operations since mid-2012, raising [REDACTED] and [REDACTED], and trying to get divorced for the last 2 years! My first start-up is a paint and wine studio, [REDACTED] opened in Park City and Salt Lake City, and I have consulted other similar operations to open in other states. In November, I received the franchise rights for 11 counties in the San Francisco area for a high-end, chic boutique waxing salons, [REDACTED] I am sure once [REDACTED] graduates in 2 years I will be spending a lot more time out in SF. [REDACTED] excelled in her high school years in Park City with her academics and won many state championships for tennis and lacrosse. She too started a business involving Sundanese refugees, making custom designer wool hats. She is now a Freshman at Berkeley following a pre-med/public health track. She is loving playing club lacrosse (currently leading goal scorer on her CAL team). She is a member of Pi Beta Phi and loving college life. [REDACTED] is currently a sophomore in high school and has played golf, baseball and basketball on JV and Varsity since freshman year. He is passionate about playing sports, speaking about sports and watching all sports (drives me crazy sometimes!).

I have followed over the years your commitment to philanthropic programs in science, medicine and education. [REDACTED] has shown an interest in reading many of the articles online addressing nuro/brain issues. In school, she has taken classes about language and communication disorder involving aphasia and this has sparked an interest in studying more about the brain and doing research in this area. Last semester, [REDACTED] took a seminar about the different types of treatment used for aphasia. [REDACTED] has expressed she would love to reach out to you in terms of your suggestions as to internship and research opportunities for her to pursue during her college years.

Your involvement in educational development in the Caribbean, and your baseball program in the US Virgin Islands are incredible (certainly interested [REDACTED]). For this summer, [REDACTED] has been accepted to the Wharton Business School, Business Sports Academy, for a 4-week intensive summer program. This will provide him the perfect chance to combine his love for sport and business and learn about the opportunities in the real world in this field. I have attached his 400 word essay the submitted for the program. The program which is very competitive is something that I would not want him to miss. [REDACTED] will be raising funds to pay for the program costs of \$7000. I am not sure if any of your organizations have scholarship opportunities that [REDACTED] could apply to for assistance; or if you have any ideas of other appropriate scholarship programs he could apply to. You advise and any information would be greatly appreciated.

Take care and thank you,

--
