Use Maths to Understand Football
with David Sumpter

Football – the most mathematical of sports. From shot statistics and league tables to the geometry of passing and managerial strategy, the modern game is filled with numbers, patterns and shapes. How do we make sense of these? The answer lies in the mathematical models applied in biology, physics and economics. Soccermaths brings football and mathematics together in a mind-bending synthesis, using numbers to help reveal the inner workings of the beautiful game.

Speak in Public
with Edie Lush

All of us have to do it – “say a few words” – at one time or another. Most of us are terrified by the thought of it. But don't panic. This three-hour workshop will enable you to make fear of your audience a thing of the past.

Does the prospect of addressing a roomful of people leave you weak with terror?

how to: CULTURE

Today at Harvard, one course has unexpectedly become the most popular on campus: Michael Puett's History of Chinese Philosophy. What is it about his lectures that has captured the attention of the world's brightest young minds?

Read the Bible
with [REDACTED]. Wilson

The Bible used to be part of everyone's mental furniture. It no longer is. Images, scenes, phrases and stories which would have been instantly known to our forbears draw blank responses from us. Much of the architecture, music, sculpture, painting, and poetry of the last two thousand years now requires footnotes.

how to: LIFESTYLE

For enthusiasts at all levels from beginners onwards , this evening event will provide the clues you need to cracking cryptic crosswords. Tim Moorey will explain the Ximenes rules and take you through the...
