Jeffrey

attached for your reference are photos showing the grade stake (GS) at the NE Corner
As shown on sketch from Tim Oden the required amount of fill is 9"4" to meet grade at the NW Corner closet to MH

The Plan would be to use a lot of rocks and lose rock material for first stage of fill and then top off with 4 to 5 feet of compacted dirt.
Dirt and rocks would extend 25 to 30 feet pass edge of proposed layout in this corner.

Are you OK with this?

regards Brice
