Subject: Breakfast Presentation - March 30th, 2016

Date: Wed, 16 Mar 2016 20:52:14 +0000

Paul Verbinnen, President Sard Verbinnen:

Cyber Security: "Communications Considerations for Data Breaches & Cyber Attacks"

On Wednesday March 30th, Mr. Paul Verbinnen will provide a thorough overview on how the effects of data breaches and cyber attacks can be contained and/or mitigated by proper communication.

IMPORTANT MESSAGE: Urgent Ransomware Warning

There has been a significant increase in the proliferation of Ransomware. Executing malicious attachments or visiting compromised sites can render all of your data unreadable. This type of attack takes advantage of both computer vulnerabilities (unpatched systems) as well as a lack of security awareness (social engineering tactics). IMG recommends you take the following actions to guard against this form of attack:

- **Educate employees about Ransomware.**
- **Remind employees not to open attachments they are not otherwise expecting or attachments from untrusted sources.**
- **Remind employees not to follow links embedded in e-mail messages from untrusted sources and to be discriminating if the link is provided from a trusted source.**
- **Confirm systems are patched.**
- **Ensure antivirus signatures are up to date.**
- **Certify that all data is backed up and restore procedures have been tested.**

INVESTIGATIVE SERVICES:

DIGITAL FORENSICS/CYBER SECURITY - Cybercrime is at an all-time high and has become an ever increasing threat. IMG's Digital Forensic/Cyber Security division can assist with a comprehensive assessment of your I.T. systems. This assessment includes an evaluation of the current security system's policies and procedures and recommendations to enhance overall efficiency and cost effectiveness.

BACKGROUND INVESTIGATIONS/DUE DILIGENCE - IMG provides a comprehensive analysis of a potential business partner, entity, investor, employee or individual, both domestically and abroad. IMG can conduct inquiries that includes a federal criminal record search, driving history check, employment history, UCC filings and warrants, real and personal property holdings, all corporate and business affiliations, regulatory searches in relevant industries, United States Tax Court records, and a full media search, including relevant trade and business media.

SECURITY/EXECUTIVE PROTECTION - IMG can provide secure transportation and security for your colleagues or family for international travel. IMG personnel will conduct reconnaissance of the areas of the particular visit, which could include driving the routes and alternate routes, identifying safe locations, medical facilities and centers of law enforcement and liaising with other representatives, security organizations or government agencies as required. IMG performs a comprehensive analysis of a company's vulnerability to a range of threats, including terrorist attacks, natural disasters, workplace violence, theft and spying.

LITIGATION SUPPORT - IMG provides a range of investigative and intelligence-gathering services on behalf of attorneys and their clients. IMG assists legal counsel in the discovery process by identifying and interviewing witnesses, locating assets, assessing net worth, and conducting background investigations and surveillance when

appropriate. When investigating internal fraud, workplace violence, sexual harassment and discrimination cases, IMG works with companies to uncover early warning signs, creates an action and response plan, and helps deploy professional staff to assist and counsel employees in the aftermath of an incident. To help build cases, IMG utilizes digital forensics to uncover infiltration or tampering with computer systems and electronic assets, and helps recover lost data and communications.
